Business Continuity

Background

Independent studies show that

20% of all companies will suffer flood, storm damage, power failure or an IT Disaster at some point.

If disaster strikes

having a Business Continuity Service in place will ensure that your business has guaranteed space, Furnishings and IT connectivity services ready for continued operations.

Business Continuity Services can prevent

damage to service, reputation and finances being able to transfer critical staff to alternative premises at short notice to continue to operate, and minimises disruption for your customers.

There are usually perceptions

regarding the complexity and cost. Not so, it is a straightforward, simple process achieved with the minimum of effort and cost.

Key Benefits

MHBC an established and stable Business Partner

Minimizes the interruptions of Critical Processes and Safeguards business operations

Limits losses and revenue reduction at managed costs

Meets fast Recovery Time and Recovery Point objectives

Avoids compromise to Business Reputation

Simple controlled process for resumption of operations

Control and customization of your own Disaster Recovery

No Capital Outlay for redundant premises

Guaranteed workspace
