Description

The property comprises a church building of stone construction which we anticipate was built around 150 years ago. The property has a pitched slate covered roof incorporating a large stone built spire. We understand the original church was extended to the rear in 1997 to provide a reception, office and WC along with ramp access to the side.

The property provides accommodation over upper and lower ground floors. The main church hall is at upper ground level and has a large hall with open trussed roof, windows to both sides. To the rear is a large reception area, male/female WC, with two offices.

A small spiral staircase provides access to mezzanine storage. The entrance hall has a double vaulted height ceiling. Stairs provide access to the lower ground floor which has two dedicated entrances, the accommodation provides a large hall with kitchen, and a number of store rooms along with further WC's and a small store.

The property has a mixture of carpet and wooden floors, painted and exposed stone walls and plastered ceiling with lights. It has numerous stain glass windows to the outer wall. The kitchen to the lower ground floor is fitted with a range of base and wall cupboards along with stainless steel equipment and a large extraction canopy.

Externally to the front is a car park with side access to the lower ground floor areas.

The total site area is approximately 0.22 acres (0.089 hectares)

Location

The property is located on Oak Road, Matlock, Derbyshire. The immediate location is a mainly residential area, situated on the south side of Oak Road at its junction with Bank Road. Further down Bank Road is Derbyshire County Council offices and access to the main retailing centre.
