Description

Unit 5C is of steel portal frame construction with installed cladding serviced by up and over electrical shutter doors. The unit has access to ample natural light via translucent panels and a minimum eaves height of 8m to a pitch of 9m.

The unit comes with a kitchenette, W/C facilities, water conserving sanitary ware and a three-phase power supply. Externally the unit benefits from designated car parking for occupiers allocated on a pro-rata basis. The unit has also been fitted with newly installed solar panels which are power generated and fed back into the units to allow for lower electricity bills for any tenant.

Location

The site is accessed via the A170 providing direct access to both Thirsk and Scarborough. The A19 is also only 1 junction away meaning there is additional connectivity via this road to the North East, Teesport and York.

The site is located approximately 1 mile from the centre of Pickering and 8.8 miles from Malton Train Station providing access to amenities and local transport. Further local transport is also available via local bus services which service the site every 40 minutes, ensuring excellent connectivity for your business needs.

Accommodation

The accommodation comprises the following areas:

Name	Size	Rent (sq ft)	Availability
Unit - 5C	2,088 sq ft	£8.50	Available
Total		£8.50	

Viewings

All viewings are to be arranged by Daniel.Clinch@alignpropertypartners.co.uk or our Joint agents McBeath Property Consultancy andrew@mcbeathproperty.co.uk

Terms

New FRI leases to be offered with large incentives available.

Legal Fees

All ingoing tenants will pay the landlords reasonable legal fees in any transaction.

SUSTAINABLE BUSINESS COMMUNITY

Be a part of it all

Description

The units are of steel portal frame construction with insulated cladding with up and over roller shutter doors. There is ample natural light into the units via the translucent panels, each unit has minimum eaves heights of 8m to a pitch of 9m. Each unit comes with a kitchenette and W/C and a 3 phase power supply. External to the units there is parking for occupiers: the amount of spaces vary for the size of the unit occupied. Installed onto the roof of these units are solar panels of which all power generated is fed back into the units to allow for lower electricity bills for any tenant.

EPC

Each unit has its own independent EPC rating of an 'A' and can be provided upon request.

Rules on letting this property

Properties can be let if they have an energy rating from A+ to E.

You can read [guidance for landlords on the regulations and exemptions \(https://www.gov.uk/government/publications/non-domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance\)](https://www.gov.uk/government/publications/non-domestic-private-rented-property-minimum-energy-efficiency-standard-landlord-guidance).

Energy rating and score

This property's energy rating is A.

Properties get a rating from A+ (best) to G (worst) and a score.

The better the rating and score, the lower your property’s carbon emissions are likely to be.

How this property compares to others

Properties similar to this one could have ratings:

If newly built	13 A
If typical of the existing stock	54 C

Breakdown of this property’s energy performance

Main heating fuel	Grid Supplied Electricity
Building environment	Heating and Mechanical Ventilation

Assessment level	5
Building emission rate (kgCO ₂ /m ² per year)	1.21
Primary energy use (kWh/m ² per year)	13

► [About primary energy use](#)
